

Coastal Adventures and Sweet Treats:

A Special Day in Newport

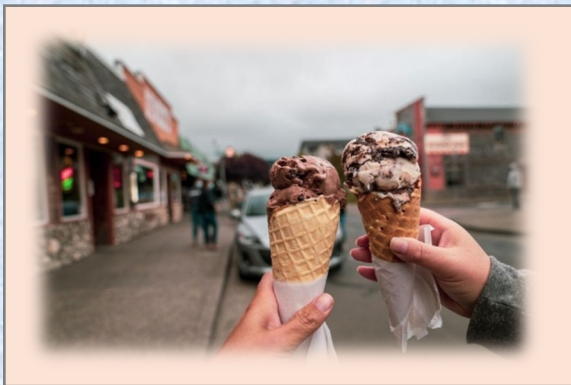

The ladies from the Lehigh and Powell programs recently enjoyed a wonderful day trip to Newport, where laughter, friendship, and adventure filled the day from beginning to end. Their destination was the incredible Oregon Coast Aquarium, and it quickly became an outing to remember.

From colorful fish and mesmerizing jellyfish to playful sea otters and massive sharks swimming overhead, every exhibit brought excitement and curiosity. The ladies enjoyed exploring together, sharing favorite moments, pointing out sea creatures to one another, and taking in all the sights and sounds of the aquarium.

The ladies were grateful for the opportunity to enjoy their friendships, share new experiences, and make meaningful memories together. Throughout the day, there were smiles, conversations, and plenty of laughter as everyone shared in the adventure.

After the aquarium visit, they enjoyed a picnic lunch along the beautiful Oregon Coast. With ocean breezes, scenic views, and the sound of nearby waves, the group shared lunch while soaking in the peaceful coastal atmosphere. The fun continued with a stop for ice cream on the way home—the perfect ending to a beautiful coastal day.

The Lehigh and Powell ladies returned home with happy hearts, wonderful memories, and perhaps already a few ideas for the next adventure ahead.
