

A Summer Adventure on the Oregon Coast

Summer is the perfect time to get out, explore new places, and make lasting memories, and that's exactly what the ladies from The Goode Home did during their recent trip to the Oregon Coast!

The adventure began with an overnight stay in a charming beach house, giving everyone the chance to relax, enjoy the coastal atmosphere, and spend quality time together. From sharing meals and conversations to simply enjoying the sights and sounds of the ocean, the beach house made the trip even more memorable.

They also visited the **Oregon Coast Aquarium**, where they discovered fascinating marine life and experienced the wonders of the ocean up close. One of the highlights was posing inside the giant megalodon jaw exhibit, creating a fun photo that captured plenty of smiles and laughter.

Of course, no trip to the coast would be complete without spending time at the beach. Whether strolling along the shoreline, enjoying the fresh ocean air, collecting treasures in the sand, or simply taking in the beautiful scenery, the day was filled with moments that everyone will remember for years to come.

We love creating opportunities for the people we support to experience all that Oregon has to offer. From local community events to overnight getaways and new adventures, these experiences are about having fun, exploring, and making lasting memories with friends.

A heartfelt thank you to Jacob and Blade, whose kindness, planning, and enthusiasm made this trip possible. Their planning and support helped create a getaway filled with laughter, discovery, and unforgettable moments.

It looks like the ladies from The Goode Home had an incredible coastal adventure—and judging by the smiles, we'd say it was a huge success!

Here's to making the most of summer, one adventure at a time!
